Indoor Skydiving

5. WINDOBONA Open Championship

and

5. Austrian Nationals

18. - 20.03.2022

2-way Formation und 2-way Formation Junior

FS 2-Way and FS 2-way Jr are not regulated by the FAI. WINDOBONA is hosting these disciplines

to give children, beginners and slightly advanced flyers the possibility to take part in our event under

adjusted circumstances. We sincerely hope, that by doing so, beginners and novices will feel

welcome to make their first competition-experiences and hopefully join our fascinating and so beloved sport.

Therefore we hope you understand, that in the discipline FS2-Way we can only accept teams, that consist of not more than one performer, who is also listed in the category FS4W / AAA

All the definitions of the FAI / IPC regulations for indoor skydiving are applying. (except for the numbers of Flyers and the age restrictions for the junior's class)

The worktime is 35 Seconds

Each round consists of a sequence of 4 Formations.

Which means, that there will be 2 Blocks per Round, each consisting of 2 formations with the corresponding inter. The blocks will be determined by draw of the divepool below.

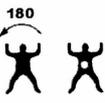

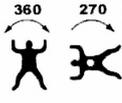

If there is no inter a total separation needs to be shown, such as between each block.

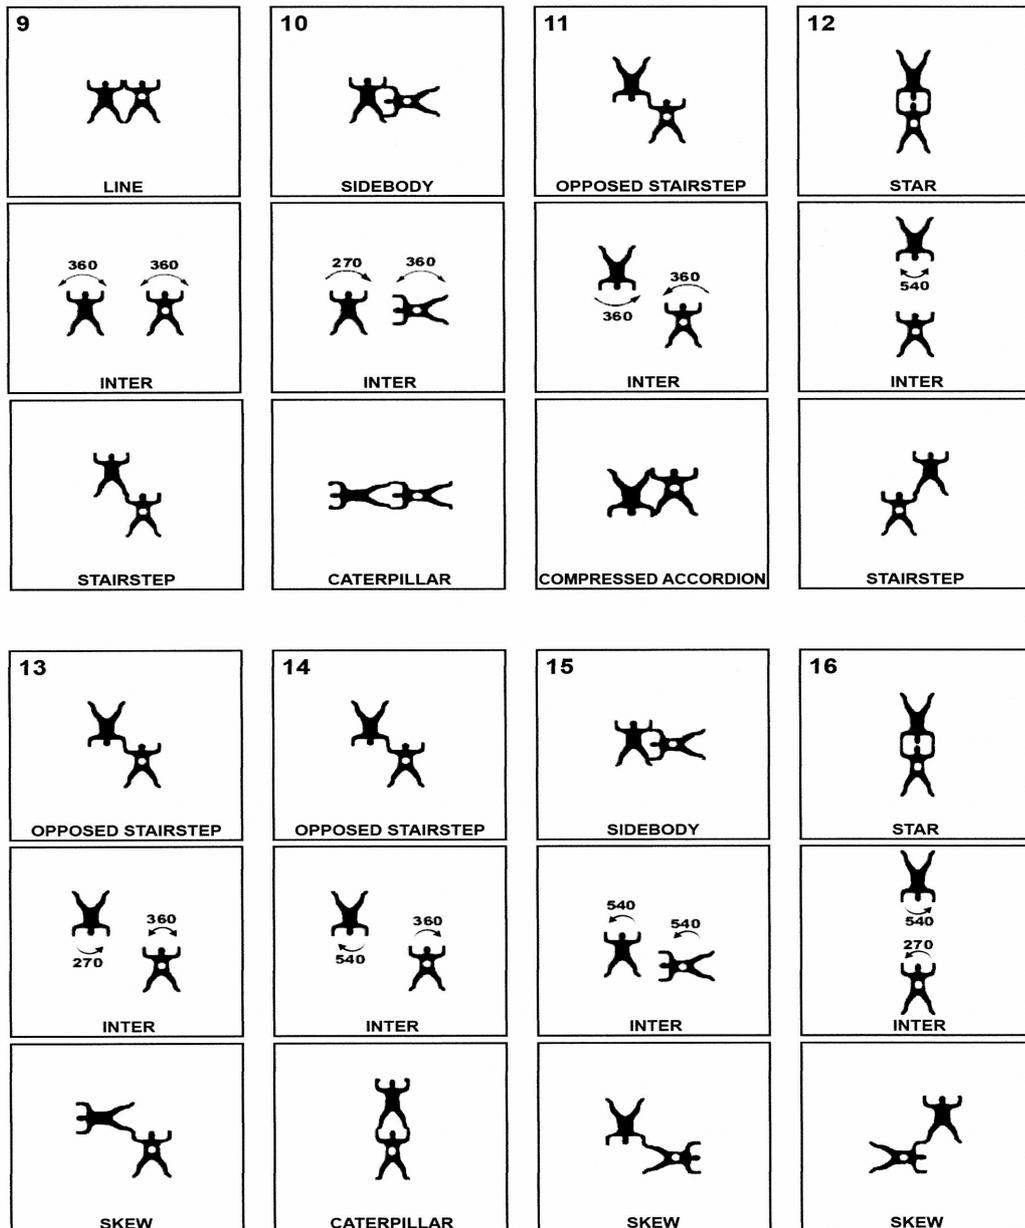

It is the responsibility of the team to clearly present the start of working time, correct scoring formations, inters and total separation to the judges.

Scoring formations need not be perfectly symmetrical, but they must be performed in a controlled manner. Mirror images of formations and whole block sequences are not permitted.

Where degrees are shown, (180, 270, 360, 540) this indicates the approximate degree and direction of turn required to complete the inter as intended.

2FS Divepool

<p>1</p>  <p>STAR</p>	<p>2</p>  <p>STAR</p>	<p>3</p>  <p>SIDEBODY</p>	<p>4</p>  <p>LINE</p>
